Gentlemen:

Subject: #3 Battery Combustion Stack

This letter serves as formal notification of our intention to initiate a compliance demonstration program for #3 Battery Combustion Stack on May 22-23, 2002. Measurement of Filterable Particulate Matter, Nitrogen Oxides, Sulfur Dioxide and Visible Emissions will be conducted.

The sampling methods and equipment employed will be those referenced in 40 C.F.R. Part 60, Appendix A, most recent revision. These methods were outlined in the test protocol previously submitted.

This tentative schedule is contingent upon normal operations of #3 Battery and acceptable weather.

Questions regarding this program should be referred to Mr. W. C. Graeser at (412) 233-1467.

**SUBJECT: United States Steel LLC - Clairton Coke Operations  
40 CFR 63 Subpart Y, Marine Tank Vessel Loading  
§63.566 Notification Requirements**

Dear Part 63 NESHAP Administrator:

Clairton Coke Operations currently operates a facility which loads coke byproduct plant light oil into barges for shipment on the Monongehela River. The facility is currently in full compliance with all applicable requirements of the subject regulation. During a recent compliance review, we were unable to locate documentation that the following notifications, required at 40 CFR 63.567 were made in a timely manner:

- ☐ §63.567(b)(3) - initial notification requirement
- ☐ §63.567(b)(4)(i) - notification of intent to construct
- ☐ §63.567(b)(4)(ii) - notification of date construction commenced
- ☐ §63.567(b)(4)(iii) - notification of anticipated startup date
- ☐ §63.567(b)(4)(iv) - notification of actual startup date
- ☐ §63.567(b)(5) - Confirmation that Clairton utilizes vapor tight vessels vented to a control device meeting the requirements of §63.563(b).

The purpose of this correspondence is to confirm the following:

1. Construction for the Clairton light oil loading facility commenced in October 1996.
2. The Clairton light oil loading facility began operation in March 1998.
3. Clairton utilizes only vapor tight vessels and all vapors are vented to a control device meeting the requirements of §63.563(b).

This letter is intended to supplement our internal records. We are not requesting a response from U.S. EPA or Allegheny County Health Department.

Very truly yours,

*Coleen M. Davis*  
Coleen Davis  
Senior Environmental Control Engineer
